Relive the past, make a memory at Historic Mill Creek Discovery Park

Visitors can witness the power of the creek harnessed to cut timber into lumber at one of the oldest industrial sites on the Upper Great Lakes and soar like an eagle on the zip line during the Adventure Tour.

Discover the Adventure

Trek through the treetops on the Adventure Tour. This special, guided nature experience will take visitors up the five-story Treetop Discovery Climbing Wall, over the Forest Canopy Bridge and down the 425-foot Eagle's Flight Zip Line.

Discover the Past

Forgotten in the late 1800s, Mill Creek was rediscovered in 1972 and reconstructed after extensive archeological work.

A working 18th century water-powered sawmill chews through timber while the millwright describes the impact this industrial innovation had on the region.

Discover Nature

Trained naturalists present live programs daily in the Forest Clearing.

More than 620 acres and three miles of accessible trails cross the dog-friendly park, abounding with wild plant and animal life. Young visitors can explore the Forest Friends Play Area. Even the novice hiker will find adventure in the northern forests. From the top of the Treetop Discovery Tower, visitors can look out over the Straits of Mackinac from a whole new perspective.
