Weddings*

Fun
for the
whole
Family

CURIOUS QUESTIONS

When is the best time to see the butterflies?

Butterflies fly throughout the day according to species, and enjoy the warmth of the sun.

What is the temperature in the conservatory?

A controlled atmosphere of 75-80 degrees keeps our butterflies warm and happy.

How many different butterflies are there?

Hundreds of butterflies are shipped to us weekly and throughout the season, 200 different species are present.

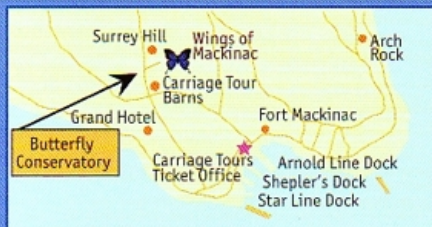

Where do you get your butterflies?

Our butterflies are from butterfly farms in the tropics, the United States and Europe. Our butterflies are not caught in the wild, and numerous government permits are necessary to import these beautiful creatures.

Wings of Mackinac is located past Grand Hotel at Surrey Hill - The first stop on your Mackinac Island Carriage Tour

Purchase your tickets at the Mackinac Island Carriage Tours Ticket Office on Main Street or at the Conservatory Door
